<u>Area of the State</u>	<u>City</u>	<u>Description of Ordinances/Orders</u>	<u>Link to Ordinances / Executive Orders</u>
		<p>COVID-19 April 9 Press Briefing Recap:</p> <p>As of 2:30 p.m. today, Victoria County reported 9 new confirmed COVID-19 cases, with a total of 70 cases to date, 60 of which are still active; meaning they still have the virus. 10 of the total 70 have since recovered. 31 of the total 70 are related to Post Acute Medical North. 52 of the total 70 patients are recovering at home. 8 patients are in the hospital, 2 of which are in ICU on ventilators. 16 of the total 70 are related to community transmission.</p> <p>Victoria County Public Health Authority Dr. John McNeill gave an update on COVID-19 patients and discussed Post Acute Medical North. Persons who have completed their isolation and are considered “recovered” from their illness have had no fever for a least 72 hours, symptoms have improved, and at least 7 days have passed since their symptoms first appeared.</p> <p>Patients who have tested positive for COVID-19 are now being housed at Post Acute Medical North and all other patients who do not have COVID-19 and who received negative test results after being tested, are being transferred out. PAM North will become a COVID facility and positive patients will be in one specific area. This will decrease the risk of further transmission of the disease because positive patients will not be in the community and the healthcare workers providing care for positive patients will also be isolated to one specific area. There are 7 positive patients housed at Post Acute Medical North.</p> <p>Chief Clinical Officer for the Gulf Bend Center Lane Johnson discussed mental health and coping mechanisms. Johnson stated that our attitude about this pandemic and all the restrictions is way more important than this pandemic and all the restrictions. He encouraged the public to look for ways to be on the light side rather on the heavy side of this. At the same time, acknowledge your feelings. If you are angry, write about that</p>	<p>https://www.victoriatx.org/departments/communications-office/emergency-information/coronavirus-covid-19</p>
